

FITT 3: PICKLEBALL

August 21, 2026
First Semester
A.Y. 2026-2027

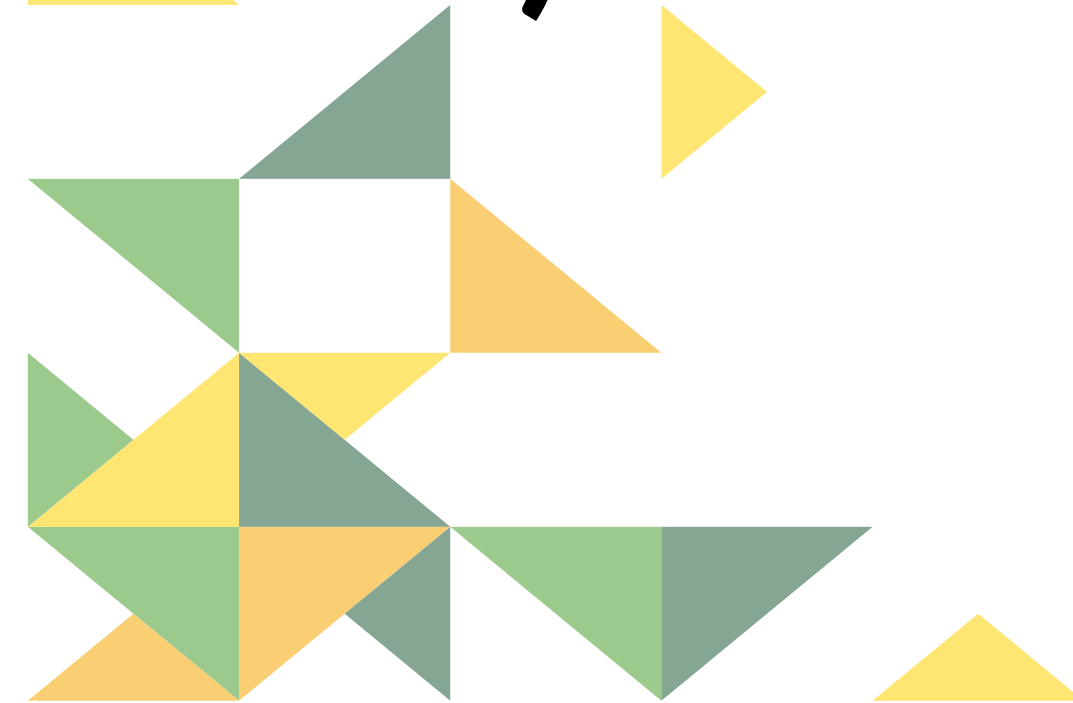

WHAT IS PICKLEBALL?

WHAT IS PICKLEBALL?

Pickleball is a **paddle sport** that can be played **indoors or outdoors**, it is a hybrid of *Badminton, Tennis, and Table-tennis*. It can be played as **single (one player per side)** or **doubles (two players per side)**.

HISTORY

HISTORY

Origin: Was created during the summer of **1965** on **Bainbridge Island, Washington, USA.**

Founders: The sport was created by:

- Congressman Joel Pritchard
- Bill Bell
- Barney McCallum

HISTORY

Purpose: To provide a sport for the entire family to have **recreational family activity**, particularly to give their children something to do during the summer.

Short Story: Pickles was the **family dog** that would chase after errant balls and then hide in the bushes, thus Pickle's ball which was later shortened to the namesake of **Pickleball**

HISTORY

- Initially , families played Pickleball in their backyards on a hard surface, on driveways, and on residential dead-end streets.
- Since the **mid-1970's**, Pickleball has grown and expanded from a family activity game to **paddle court sport**, with formalized rules. Now, over 20 yrs later, Pickleball is played in thousands of school **P.E programs, parks and recreation centers, correctional facilities, camps, YMCAs, and retirement communities**. This sport is becoming very popular among active senior adults at community centers and is growing in popularity on high school and college campuses.

HISTORY

Inspiration: The original game combined elements of:

- Badminton - court dimensions and general court layout
- Table tennis - net play, serving, court positioning, and rallies
- Tennis - paddle-and-ball concept and certain techniques

HISTORY

Original Equipment:

- Badminton court
- Table-tennis paddles
- Perforated plastic ball similar to a **Wiffle ball**

EQUIPMENT AND PLAYING FACILITIES

EQUIPMENT AND PLAYING FACILITIES

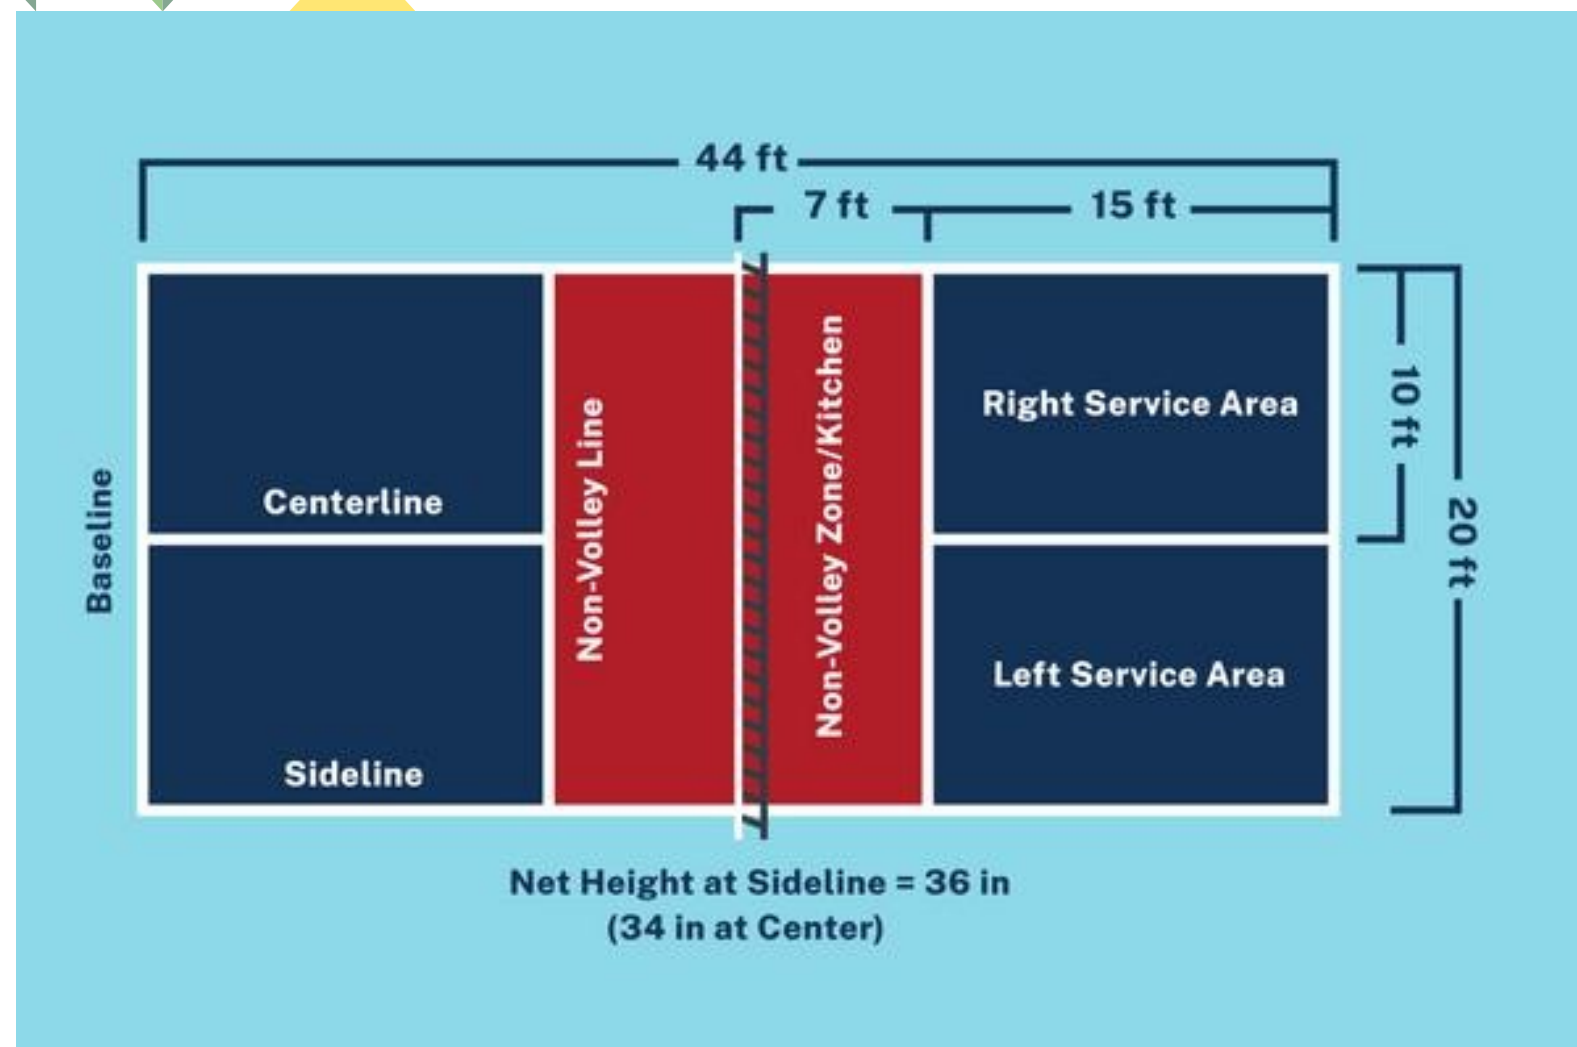

- **Paddle**
- **Pickleball**
- **Net**
- **Court**

COURT DIMENSIONS AND MARKINGS

COURT DIMENSIONS AND MARKINGS

Court Dimensions and Markings

- **Baseline**
- **Sidelines**
- **Non-Volley Zone (Kitchen)**
- **Non-Volley Zone Line**
- **Centerline**

BASIC RULES AND REGULATIONS

BASIC RULES AND REGULATIONS

Serving

- Must be made **diagonally crosscourt**.
- Must land in the opponent's appropriate service court.
- Must clear the non-volley zone.
- Is made from behind the baseline.
- In traditional serving, is performed using an **underhand motion**.

BASIC RULES AND REGULATIONS

Two-Bounce Rule

One of pickleball's most important rules is the **two-bounce rule**.
After the serve:

- The receiving team must allow the ball to bounce before returning it.
- The serving team must then allow that return to bounce before hitting it.

After these two required bounces, players may volley the ball.

BASIC RULES AND REGULATIONS

Non-Valley Zone/Kitchen

A player may enter the kitchen but **cannot volley the ball while standing in it or touching its boundary line**. A player also cannot volley and then have momentum carry them into the non-volley zone.

BASIC RULES AND REGULATIONS

Ball In or Out

A ball is **in** if it lands inside the appropriate boundary lines.

A ball that lands outside the relevant boundary is **out**.

BASIC RULES AND REGULATIONS

Ball In or Out

An important exception is the kitchen line: because the non-volley zone extends to the inside edge of the court, a ball landing on the non-volley-zone line during a serve is considered a fault.

BASIC RULES AND REGULATIONS

Faults

A fault can occur when:

- The ball goes out of bounds.
- The ball does not clear the net.
- A player violates the serving requirements.
- A player volleys while violating the non-volley-zone rule.
- A player violates other applicable rules.

BASIC RULES AND REGULATIONS

Scoring

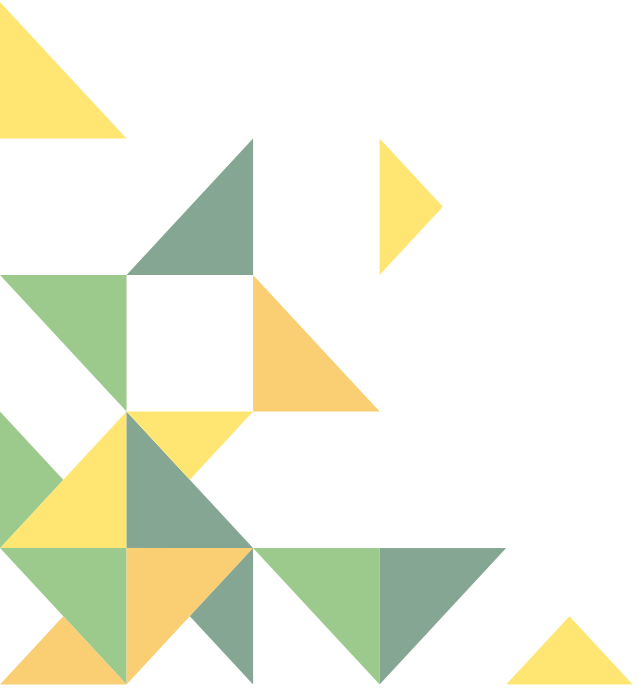

Under traditional scoring, **only the serving side scores points**. A point is won when the serving team wins the rally.

Games are commonly played to **11 points**, and a team must win by **2 points**. Competitive formats may use different scoring systems or game lengths.

SINGLES AND DOUBLES PLAY

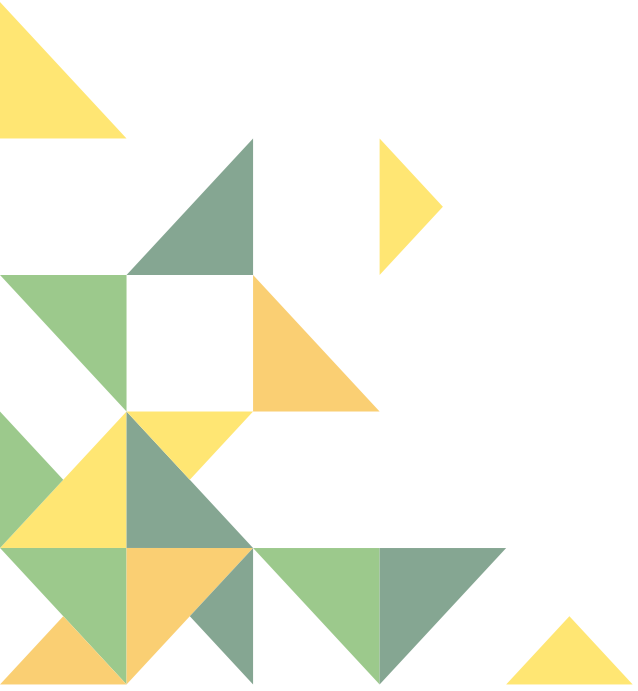

SINGLES AND DOUBLES PLAY

Singles

- 1 player vs 1 player
- The individual player must cover the entire court on their side.

SINGLES AND DOUBLES PLAY

Doubles

- 2 players vs 2 players
- Doubles is the most common recreational format.

SIMILARITIES AND DIFFERENCES

SIMILARITIES

Aspect	Singles	Doubles
Court dimensions	20 × 44 ft	20 × 44 ft
Net	Same	Same
Ball	Same	Same
Paddle	Same	Same
Basic serving rules	Same	Same
Two-bounce rule	Applies	Applies
Kitchen/non-volley zone	Applies	Applies
Objective	Win rallies and score points	Win rallies and score points

DIFFERENCES

Singles	Doubles
1 player per side Greater court coverage required from one player More emphasis on individual endurance More opportunities to target open spaces Communication with a partner is unnecessary More physically demanding per player in terms of court coverage	2 players per side Court coverage is shared Greater emphasis on teamwork Players can create strategic formations Communication is essential Requires coordination and partner awareness

SKILLS, STROKES, AND GRIPS

BASIC SKILLS

BASIC SKILLS

1. Ready Position

- Keep your feet about shoulder-width apart.
- Bend your knees slightly and maintain a balanced stance.
- Hold the paddle in front of your body.
- Stay prepared to move in any direction.

BASIC SKILLS

2. Footwork and Movement

- Move quickly and maintain balance while playing.
- Use small adjustment steps when approaching the ball.
- Avoid crossing your feet during lateral movement.
- Proper footwork helps players reach the ball and maintain good positioning.

BASIC SKILLS

3. Hand-Eye Coordination

- Track the ball carefully from the opponent's paddle to your own.
- Coordinate your paddle movement with the ball's speed and direction.

BASIC SKILLS

4. Serving

- Start each rally by serving diagonally into the opponent's service court.
- Focus on accuracy, consistency, and proper placement.

BASIC SKILLS

5. Returning the Serve

- Allow the serve to bounce before returning it.
- Aim to return the ball deep into the opponent's court when possible.

BASIC SKILLS

6. Dinking

- A dink is a soft shot that lands in or near the opponent's non-volley zone.
- It is used to slow down the rally and create opportunities.

BASIC SKILLS

7. Volleys

- A volley is hitting the ball before it bounces.
- Volleys are commonly used when players are positioned near the net.
- Players must observe the non-volley-zone rules when volleying.

BASIC SKILLS

8. Lobbing

- A lob sends the ball high over an opponent's head.
- It can be used to move opponents away from the

BASIC SKILLS

9. Groundstrokes

- A groundstroke is a shot made after the ball bounces.
- The most common groundstrokes are the forehand and backhand.

BASIC STROKES

BASIC STROKES

1. Forehand Stroke

- The paddle is swung on the dominant side of the body.
- For a right-handed player, the stroke is generally made on the right side.
- Rotate the body and swing the paddle forward.
- Follow through toward the intended target.
- Commonly used for groundstrokes, drives, and returns.

BASIC STROKES

2. Backhand Stroke

- The paddle is swung across the opposite side of the body.
- For a right-handed player, the backhand is generally made on the left side.
- Turn the shoulders and prepare the paddle early.
- Swing forward while maintaining control.
- Can be performed with one hand or two hands.

BASIC STROKES

3. Serve

- The serve begins each rally.
- The traditional serve is performed using an underhand motion.
- The ball must travel diagonally across the court.
- The serve should be controlled and accurate rather than simply powerful.

BASIC STROKES

4. Return of Serve

- The receiving player allows the serve to bounce before hitting it.
- A deep return is commonly used to give the receiving team time to move toward the net.
- Focus on control, accuracy, and placement.

BASIC STROKES

5. Dink

- A soft, controlled shot that lands in the opponent's non-volley zone.
- Usually performed with a short and gentle paddle motion.
- Used to create opportunities and prevent opponents from attacking aggressively.

BASIC STROKES

6. Drive

- A drive is a faster and more powerful groundstroke.
- It is usually hit after the ball bounces.
- Can be used to put pressure on opponents or force a weak return.

BASIC STROKES

7. Volley

- A volley is hit before the ball bounces.
- It is often used close to the net.
- Requires quick reaction, good paddle positioning, and control.

BASIC STROKES

8. Lob

- A lob sends the ball high and deep over the opponent.
- It can be used offensively or defensively.
- Effective placement is more important than excessive power.

BASIC GRIPS

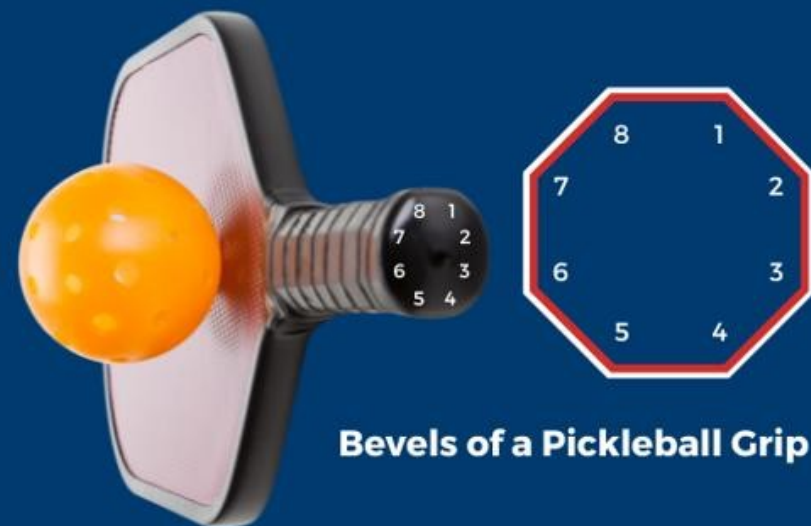

1. Continental Grip/Handshake Grip

PickleGO

Continental Pickleball Grip

Step 1:

Rotate your pickleball paddle sideways to view the notches of the grip correctly.

Step 2:

Line the base knuckle of your index finger with the 1st notch on your paddle grip.

Base Knuckle of Index Finger

BASIC GRIPS

1. Continental Grip/Handshake Grip

- Hold the paddle as if you are shaking hands with it.
- The paddle face is relatively neutral.

BASIC GRIPS

1. Continental Grip/Handshake Grip

Useful for:

- Volleys
- Serves
- Dinks
- Backhands
- General all-around play

BASIC GRIPS

2. Eastern Forehand Grip

BASIC GRIPS

2. Eastern Forehand Grip

- The paddle is held in a position that favors the forehand side.
- Provides a comfortable paddle angle for forehand groundstrokes.

BASIC GRIPS

2. Eastern Forehand Grip

Useful for:

- Forehand drives
- Forehand groundstrokes
- Certain serves

BASIC GRIPS

3. Eastern Backhand Grip

BASIC GRIPS

3. Eastern Backhand Grip

- A variation that allows the player to position the paddle effectively for backhand shots.
- Provides good control when hitting backhand groundstrokes.

BASIC GRIPS

3. Eastern Backhand Grip

- A variation that allows the player to position the paddle effectively for backhand shots.
- Provides good control when hitting backhand groundstrokes.

BASIC GRIPS

4. Two-Handed Backhand Grip

BASIC GRIPS

4. Two-Handed Backhand Grip

- Both hands are placed on the paddle handle.
- The non-dominant hand provides additional support and control.

BASIC GRIPS

4. Two-Handed Backhand Grip

Useful for:

- Backhand drives
- Powerful returns
- Stability during fast exchanges

Thank you and
have a great
semester!
